

STEM Class

Hollywood Innovators: STEM Behind the Screen

Teacher: Melody Warren

melodylw0226@gmail.com

Grades: 4-8

This class will be all about problem solving and teamwork! We will incorporate age-appropriate, fun science and math concepts into each week's STEM project. Each week we will have a STEM project that goes along with a movie. Included in the movie line-up are *Robots*, *Lego Movie*, *Flubber*, *Star Wars*, *Meet the Robinsons*, *Cloudy With a Chance of Meatballs*, *The Polar Express*, and many more. Students will work in groups to brainstorm, predict, design, create, and edit. This will be a “get your brain juices flowing” adventure with **Science**, **Technology**, **Engineering**, and **Mathematics**!

Supply List:

- * Scissors
- * Pen
- * Ruler
- * Popsicle sticks, 50 count
- * Index cards, 100 count
- * Tape, roll of scotch or masking

Tuition: \$50 per month (August-April)
