

Pre-Algebra

Teacher: Teresa Pendell

Email: buddypendell@gmail.com

Phone: 405-812-3711

Tuition: \$50 a month (August -April)

Course Description: The primary goal of this course is to prepare students for Algebra by teaching them to shift from solving problems to manipulating equations with variables and applying mathematical reasoning to real-world scenarios. Focusing on building proficiency in basic math, increasing speed and accuracy, and building critical thinking skills.

This class will cover the following:

Simple and complex algebraic expressions, integers, rational expressions, powers, polynomials, and radicals. Decimals, percents, measurements, area and volume, as well as geometry, Pythagorean Theorem, statistics and inequalities.

Book: Pre-Algebra A Teaching Textbook

Assignments, grades and communications will be on Google Classroom

3-4 weekly assignments

Parents will be responsible for grading weekly assignments and have students make corrections. Detailed information will be provided in the syllabus.
