Description: Studying the culture & history of the world has always been fascinating to me. In this course we will study the ancient civilizations plus modern societies as well. I believe World History is not just about dates and facts but it is hearing the stories about people and events and that is what will be remembered by students.

Personal Information: Married to Rick with 3 children – all graduated from 12 years of homeschooling. I received my Bachelor of Arts in Education/Spanish from the University of Central Oklahoma with a teaching certificate in Spanish, History and English.
