

Practical Life Math (Consumer Math)

Teacher: Teresa Pendell

Email : buddypendell@gmail.com

Phone: 405-812-3711

Tuition: \$50 monthly (August- April)

Course Description: A practical elective focusing on real-world financial literacy and essential life skills, including biblical stewardship principles. It will cover budgeting, savings, banking, credit, and major purchases to promote responsible and informed money management. The course applies basic math to personal finance, including creating budgets, understanding net vs. gross pay, and managing bank accounts. Calculating loan payments, interest rates, credit card charges, and financing for cars, as well as investing your money. It will discuss taxes, insurance, and W-2 forms. Consumer skills such as comparison shopping, calculating discounts, and understanding markups. Life skills such as planning for major expenses like moving and vacations. This course will use real-world scenarios and hands-on projects to help students prepare for financial independence.

Book: Consumer Math by Not Consumed Homeschool \$49 (look for sale in July)

We will also use parts of Dave Ramsey's Foundations in Personal Finance-you will not need to purchase this book.

Weekly assignments will include research on the internet

Assignments and grades will be posted on Google Classroom
