Course Material Required:

- Bob Jones Press Life Science Student Edition, 5th edition, ISBN – 978-1-62856-401-3

Course Description:

In this class, we will learn all things life, from cells to plants and animals and finally to the pinnacle of God's creation: humans. All of this is a quest to understand the life that God has created. Clear, accurate scientific images in the text help students picture the structures they study. Case studies, lab activities, and questions help them think like scientists and view life science from a biblical perspective.

Weekly workload:

- 3-4 Assignments each week that include reading, comprehension questions, and occasional lab reports.
- Tests administered and signed by parents.
- Comprehension questions graded by parents. A key will be provided.
- Grades are all based on points earned/points possible.

Requirements: 7/8th grade

Additional Requirements:

- Email and printer to print out weekly homework.
